## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1, 3, 5, 7-19 are rejected under 35 U.S.C. 102(a) as being anticipated by Bayer WO 99/07782, with Eckel et al. 6,569,930 serving as its English translation, or Bayer WO 00/31173, with Eckel et al. 6,596,794 serving as its English translation.

3. Eckel et al. ('930) disclose polycarbonate, graft copolymer, fluorinated polyolefin, nanometer sized filler and applicants' oligomeric phosphorus compound, where "Y" means C<sub>5</sub>-C<sub>12</sub> cycloalkylene. Eckel et al. ('794) teach the same compounds in claims 1, 2, 8-10 and 15-18. Applicants' claims are not novel.

### ***Double Patenting***

4. Claims 11-18 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-20 of U.S. Patent No. 6,596,794. Although the conflicting claims are not identical, they are not patentably distinct from each other because applicants' phosphorus containing compound is one of the compounds claimed by the patent.

5. Claims 11-18 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 2, 8-10 and 12-15 of U.S. Patent No. 6,569,930. Although the conflicting claims are not identical, they are not

Art Unit: 1714

patentably distinct from each other because applicants' phosphorus containing compound is one of the compounds claimed by the patent.

***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

8. The claim claims an oligophosphate. However when "Y" is zero the oligomer is a phosphonate. Correction is required.

***Allowable Subject Matter***

9. Claims 2 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (571) 272-1124. The examiner can normally be reached on 7:00 a.m.-5:30 p.m. Tuesday-Friday.
